

Annual Sale of PERENNIAL PLANTS

Perennial plants are now dormant and the sooner they are planted the better will be the results next spring. The following are all hardy to frost and the longer they have to become established and make roots before the growth starts in spring, the better.

Many people defer planting for fear of frost; this is a great mistake. A little old manure, grass or leaves over the crowns is all the protection required anywhere in South Africa.

The following are all strong roots which have been grown in the open ground and not just small seedlings stunted in tins. They can be relied on to give fine flowers next spring and summer.

DELPHINIUMS.

The finest of all blue perennial plants. No garden, however small, should be without some.

MADELEINES "GOLD MEDAL" DELPHINIUM HYBRIDS. Grown from the choicest and most expensive seed sent out by the world's greatest Delphinium Specialist and saved exclusively from hand-fertilised and isolated plants of the newest and choicest varieties only. Most of these plants have already flowered this autumn and they represent an almost unbelievable advance on the ordinary Delphinium Hybrids. The flowers have caused quite a sensation at our Floral Depot in Pritchard Street, Johannesburg. Price 1/- each; 10/6 per dozen; 36/9 for 50.

MADELEINES MATCHLESS BEDDING HYBRIDS. A first class strain which, whilst not of the superlative excellence of our "Gold Medal" strain, is far ahead of the best usually sold. Price 9d. each; 5/- per dozen; 17/6 for 50; 30/- per 100.
